॥Om Siddhashrimannmahaganadhipatiye Namah:॥

Numerology helps you to make informed decisions about every aspect of your life. It gives you a glimpse of your good and bad times. Please read carefully and interpret the signals for yourself. God bless you!

Full Name:

A...t...b..a P..t...r (Mumbai, India)

(This name is NOT balanced with the Native's DOB)

Mobile: XXXXXXXXXX (The number is favorable and advised to keep, use everywhere for lifetime.)

DOB: &&- && - &&&&

D: (The Mars with a very negative input)= 9

C: 37 (The Sun with a pious and strong input)= 1

Kua (angel) Number= 3 (Always write this number on your front wrist, and circle it with green color. It will work as a shield.)

The D&C combination (9-1) happens to be extremely friendly. But due to the input of 9 being 18, this combination will not give very good results to the native. The balance is missing in every sector, like education, money, relationships, love, career, business, health, spirituality and social work etc. She will face ups and downs but anyhow, she will emerge as a winner. Since the Action plane is broken, the native often becomes lazy and postpones the implementation of her own innovative ideas.

The native has no Karmic Numbers; that means she can create her own destiny by performing good deeds in this incarnation. The native has a very good memory and will get good formal/informal education. She can do excellent research work and guide research/PHD aspirants. Also, her money and finance management looks good. Somehow, she is a disciplined person.

Easy money is not meant for her. The luck factor is missing. She has a sharp mind, but lacks intuition and organizational skills. She is not an argumentative or clever person. She should prefer jobs over business. Still she will be more inclined towards creativity and imagination. She thinks she is the best and always tries to prove her point. She may indulge in conflicting situations unnecessarily with good intent and feel satisfied even if there is nothing to gain.

Due to the negative exaggeration of Mars (number 9), sometimes it will be very difficult for her to control the anger and ego. But after the age of 40, her well placed Sun will control everything and start giving success. The native is advised to avoid anger and ego at all costs. Otherwise, she will push herself into the abyss.

॥Om Siddhashrimannmahaganadhipatiye Namah:॥

Her individual family and immediate relationship sector is very weak. Still, she will get a lot of blessings and support from her mother side than father. Sufficient happiness from husband and children is not visible. The Sun, which has emerged from a very pure input, will keep her full of oratory skills, administrative ability, authority, self-confidence, commanding, not taking orders from anyone, energy and power. Whenever Mars will try to sink, her Sun will come to the rescue in each and every situation. But due to the absence of Mercury, the native's ability to bounce back has become weak. She is afraid of taking risks. Since the Moon is an underperformer, there is always a state of indecisiveness in the mind. There is a lack of action that is required to earn money. The native is not clever and cannot show favoritism or partiality to anyone.

She must stay away from Iron, Coal, Leather, Law, Transport, Machine manufacturing, Leg work, Dancing, Automobile showrooms, Printing press, Hardware, Service stations, Finance management, Loha mandi, Spare parts, Old car buy/sell, Civil engineering, Car rental, Taps, nut and bolts, Construction work, CA, MBA-finance, Scrap (Bhangar) work, Steel fabrication, Electronics, Metallurgy related jobs/business. She should not indulge in real estate, property business or the share market, lottery and gambling etc. and the beauty/glamour/luxury products, and the liquid related jobs/business.

The Liquid related professions are: Water/milk/cold drinks, RO, Bislari, chemicals, medical shops, wine shop/pathology, painting, car wash, service centre, dairy products, agriculture food grains, laundry, saloon, beauty or ice-cream parlors, water supply, and dentistry etc.

॥Om Siddhashrimannmahaganadhipatiye Namah:॥

- Favorable professions for her:** Professions related to glass, solar energy, authoritative positions, administration, operational leadership, electricity, and judiciary related work. She can opt for knowledge and creativity based professions, like Education, teaching, coaching, training, healing, spiritual work, religious work, meditation centre, occult, writing, art work, press, journalism, content creating, singing, music, and content creation/management.

Blessing years: 09, 18, 27, 36, 45, 54, 63, 72, 81, 90, 99...

Your lottery number: None

Magical numbers for the Native: 1, 5.

(Please don't use 3 and 6 as your favorite, still they are not your enemy numbers.)

Missing Numbers: 4, 5, 6.

Most friendly numbers: 1, 5.

Neutral numbers: 3, 6, 7 (9 is neutral in temporary relation, should be avoided)

Enemy numbers: 2, 4, 8 (9 is enemy in permanent relation, must be avoided)

The desired and perfectly balanced name: AP.....A P...TT...RR

(Create a new email account on this name and use only this name on visiting cards, nameplates, and social media platforms as much as you can. The more this name travels, the more visible it is, the faster it will deliver positive and desired results. And there is no need to tamper with the name anywhere else, like PAN or Aadhar card, bank or any government document for that matter.)

Missing numbers explanation and the remedies:

4 (The Rahu): Absence of number 4 creates lack of discipline and disorganization in the native. Their reasoning and organizational abilities are weakened. They are neither punctual nor do they value time. They are not able to work neatly and their behavior reflects clumsiness, and there is constant struggle in their life.

Remedies: Feed bread crumbs to stray dogs and crows as often as possible on any day. Donate electronic items and toys to old people and children on Saturdays or Tuesdays. Offer tea to handicapped/sick persons.

5 (The Mercury): Absence of number 5 creates lack of balance in every sphere of life. Be it love, money, family, health, job, marriage. The desire to achieve one's goals, passion and versatility are lacking. The power to bounce back may also be weak.

Remedies: Fill life with green color. Use green pen, green handkerchief, clothes, green towel, bed sheet, pillow, undergarments, green curtains, green bulbs, green vegetables etc as much as possible. Always keep a green handkerchief in your pocket. Feed green grass/spinach to a cow on Wednesdays. Bring a parrot in a cage on any Wednesday and take good care of it for full five months. Then release it from the cage on any Wednesday.

6 (The Venus): Relationship sector becomes weak due to absence of number 6. Such people are not respected by their family members; they are hardly consulted in any homely decisions. They are not the center of attraction in the family. If number 6 is missing from the chart of both husband and wife, then consider distance to be certain. Their family bonding is pathetic. First, problems related to marriage arise and later there can be conflict. Their relations with parents, especially with father are also not good. Still, they get along well with siblings and their children as well.

Remedies: Donate/feed white things to the poor/beggars/needy on Fridays repeatedly - like flour, paneer, rosogulla, sugar, white clothes etc. Often on Fridays, offer completely white kheer (Puddings) cooked at home with your own hands to the disabled, especially the blind.

Planes (Yogas) explained:

No out of 8 important planes are complete inside your birth chart, which is not very good. These are: Success Plane, Practical Plane and above all the Golden Plane is completely missing. Your Silver Plane, Thought plane, Action Plane, Mental and Emotional plane are also not complete and this weakens your thought process to think out of the box. Your incomplete planes are signaling that you will earn with hard work. You have less faith in your intuition; if you have a premonition about something you ignore it. There is no chance of you being selfish. If need be, you will apply your knowledge, imagination, thinking prowess, and creativity to get things done.

Whatever fields you work in, you will go deep into the things- as they say 'baal ki khaal nikaalana'.

Dear, you are not an action oriented person and do not have a quick approach. You think much but do not take the necessary steps to implement your ideas. This affects your decision making ability. This is why; many opportunities will slip away from your hands. Your Emotional Plane indicates that you prefer your heart over your mind. That's not a good thing nowadays.

Repeating numbers explained:

In your chart, 1 is repeated thrice and 9 is also repeated thrice. Since 1 is the number of Sun, the king of the solar system, and the destiny number is coming out of a very good combination, it will make the native a good communicator, will make her speech effective and efficient, will provide the ability to use the power of communication, as well as make him an excellent and outspoken speaker. But such a Sun can also present the native with a bad image in the society and also make him very talkative. These natives exaggerate any incident and can become chatterbox. But in adverse times, they can also adopt a long silence.

Number 9 repeated thrice can make the native a very generous person. They do not care about suffering themselves in the process of helping others. They indulge themselves in the fights between others. Their human feeling and sense of service is strong. They cannot see injustice. But since the native's 9 has come from the number of Mahabharata, it increases the possibility of serious injury,

॥Om Siddhashrimannmahaganadhipatiye Namah:॥

surgery, bleeding. They do not get any reward in love. They also enjoy criticizing others. Their sharp intelligence and high energy needs to be channelized, else they may suffer from insomnia.

Your personal year (PY 2024) comes to 1 the SUN number with strong input

Overall prediction:

You can expect a lot of energy, enthusiasm, power and success from this year. It will help you achieve all your goals. You will get success as expected in work related to money, career, family, social service, business, health etc. This is not the year of making plans but of making new beginnings. Remember that whatever you are going to start this year will have a deep impact on your overall success in the coming years. Do not lose the potential of this year at any cost. This year is excellent for children's marriage, starting a new career for them. A new house or new property will give great results. You can buy land/plots also. You will get success in work related to bank, finance, marketing. It's a great year to pursue your dreams and achieve the goals. You can indulge in a new friendship/relationship this year and it will be the fruitful one.

Please note: The result of each month of the year (good or bad) depends on the number of the personal month and its relation with the Driver; therefore a strong number of the personal year does not guarantee success. Since your driver is negative, every month will definitely give you some trouble. Life-threatening injuries can also happen in the anti-months of the year.

Remedies to enhance the entire year:

1. Offer fresh water to the rising Sun God in the mornings; add a little jaggery to the water.
2. Light a ghee lamp in front of you, apply sandalwood tilak on your forehead, and chant this Beej Mantra 108 times on Sunday mornings: **Om Hraam Hreem Hraum Sah Suryaya Namah**

Personal Months: D/9, C/1

October'24: This comes to number 2 with an opposing input (Slow, struggling, discords in a relationship, health problems)

1. Remedies: Please Lord Shiva at all costs. Offer milk/panchamrit/water to the Shiva idol/linga every day, especially on Mondays. Recite Shiva Chalisa.
2. Light a ghee lamp in front of you, apply white Chandan tilak on your forehead, and chant this Beej Mantra 108 times on Mondays: **Om Shraam Shreem Shraum**

॥Om Siddhashrimannmahaganadhipatiye Namah:॥

Sah Chandramase Namah.

November'24: This comes to number 3 with a positive input (a good month for you; especially in knowledge, writing, imagination, creativity and education fields).

1. Apply turmeric or saffron tilak on the forehead everyday and taste a little saffron. On Thursday, feed soaked gram daal mixed with jaggery to the cow with your own hands.

December'24: This comes to number 4 with a good input (Since the 4 is anti to your Driver, it will give you medium results, health concerns, obstacles in success.)

On the first Tuesday of the month you need to do the blood remedy as discussed

1. On Saturdays and Tuesdays, feed chapati crumbs to stray dogs and crows as many times as possible. Donate electronic items and toys to children, old people on Saturdays or Tuesdays. If possible, go out and offer tea to handicapped/sick people.
3. Light an oil lamp in front of you, apply light gray chandan tilak on your forehead and chant this Beej Mantra 108 times on Tuesday or Saturday evenings: Om Bhram BHreem BHraum sah raahavai namah

Your personal year (PY 2025) comes to 2, the Moon number with a weak input

This is a gentle and beautiful year led by the Moon for you. It asks you to slow down. There is no need to show aggression in any area of life this year. It expects you to be patient. You will be tempted to create things and push them forward, but doing so will be a waste of time and energy. This is the year to analyze the past, stabilize it, and consolidate it. By doing so, you will find that by the end of the year you have come closer to your goal. You do not have to take the fast track this year. This is not a year for new beginnings. You must evaluate your previous year's deeds and audit them. You can enter into new partnerships. Your intuition will increase but there will be mood swings too. Mental confusion may also come up this year. But this year tells you that if you work with patience, everything will be fine.

Actually, It's a slow and gentle year for you. It lacks power and aggression but it will increase attraction towards you. These are waiting times. You don't need to run to get things done, instead utilize your mental power. You will be lured to get things going and kicking but you should be varying of starting new things.

॥Om Siddhashrimannmahaganadhipatiye Namah:॥

You can go for a partnership (there are different calculations for that, those parameters must be met for the compatibility point of view). You may face some sentimental issues this year. This year will pull you towards Occult related things but you have to take a call for yourself. Please move forward slowly and steadily, and at the end of this year you will find that you have reached the destination you wanted to be.

Please note: The result of each month of the year (good or bad) depends on the number of the personal month and its relation with the Driver; therefore a gentle and sensitive number of the personal year does not guarantee creative success. Since your driver is opposite to the PY number, every month will definitely give you one or another trouble. The months whose numbers are 1, 5 and 3 will give you success and prosperous results.

Remedies to enhance the year:

Do the first Blood Remedy in the month of January (on the first Tuesday) and second in the month of June (on any Tuesday)

1. Offer milk, water or Panchamrit to the the Lord Shiva's idol. Recite Shiv Chalisa. Do a moon walk on Poornima (full moon) nights for half-an hour or more.
2. Light a ghee lamp in front of you, apply white Chandan tilak on your forehead, and chant this Beej Mantra 108 times on Mondays, especially on Poornima night: **Om Shraam**

Shreem Shraum Sah Chandramase Namah.

(According to your convenience and wish, the results of every month of the year 2025, its advantages and disadvantages, do's and don'ts and necessary and effective remedies will be told to you at the beginning of next year.)
